Nine Actors 九角子

此作品《九角子》是取材傳統福建地方戲劇“高甲戲”，實“九角戲”。“九角戲”是由九個角色組成。作曲家嘗試以九大種潮洲傳統器樂演奏，如嗩吶大小鑼鼓，笛套，絃詩樂，細樂，潮堂樂，等，作九個音樂上的角色。

曲中亦節錄福建民謠《苦調》和客民謠《山子歌》作音樂素材。曲中結構以「起」，「承」，「轉」，「合」，和「序」，「破」，「急」作曲式。七小段一氣而成把音樂上的聲響和樂韻，將傳統潮洲文化精作現代的啟思。

This piece, “Nine Actors” was written for Singapore Chinese Orchestra. Inspired by tradition Hokkien drama, is performed by nine actors. Composers tried to used traditional nine main types of Teochew instrumental music such as suona ensemble, “drum and gong” ensemble, flute and woodwind ensemble, strings ensemble, solo and court music etc. Composer imagined those nine types of instrumental groups as nine different actors to perform the entire composition.

There are two traditional Hokkien and Hakka folk tunes as the main musical elements. There are seven short sections to link the entire piece without break. As the whole work, it contains different tone color and energetic rhythmic motion to reflect a new sound on traditional Teochew culture.
